Superintendents of County, Supervisory District or Union, and Urban Schools, by States	3
Superintendents of Parochial Schools	83

CLASSIFICATION OF PUBLIC-SCHOOL SUPERINTENDENTS INCLUDED IN THIS DIRECTORY

County and supervisory district or union superintendents.—The county constitutes an area for school administration purposes in all of the States except Delaware, Nevada, New York, and the six New England States.

Twelve [1] States have a county-unit type of school organization the superintendent of which administers all schools in his area except those in independent districts. In Florida and West Virginia the only administrative districts are county units. Each of the other 10 county-unit States has one or more independent city school districts that are independent of the county. In Virginia, some "divisions," the official designation for all school districts, include the territory of more than one county. Although most Utah districts are complete county units, the territory of some counties is divided into two or three districts each of which has its own superintendent.

In the other 27 States having county superintendents there are few county unit districts. In these States the county superintendent serves in an intermediate capacity between the State department of education and the local administrative districts in his county, typically performing supervisory or service functions for the local units.

In New England the town (except for a number of city school districts and a few other instances) is the basic unit of school administration. Town school systems that are too small for each to employ a full-time superintendent are grouped in supervisory unions for the purpose of providing a superintendent who serves all town systems in his union. In New York State towns have been combined to form supervisory districts each of which has a superintendent.

In Delaware and Nevada all administrative functions not performed by local districts are performed by the State department of education.

Urban place and superintendent.—The 1950 Census classification of

[1] Alabama, Georgia, Florida, Kentucky, Louisiana, Maryland, New Mexico, North Carolina, Tennessee, Utah, Virginia, and West Virginia.

urban places [2] has been followed in preparing this section of the Directory and the list of such places shown for each State was taken from Bureau of the Census Series PC–3, No. 8 Revised "Population of Urban Places: April 1, 1950." Unincorporated places are designated by an asterisk (*). The 1950 population of each place is shown in parenthesis. These numbers do not indicate the total population of school districts except in cases where the boundaries of the urban place and those of the school district are coterminous.

Superintendents administering urban schools are indicated as follows:

Most cities and other urban places constitute independent school administrative districts, each of which has its own superintendent. Where this is true the name of the superintendent is listed after the name of the urban place.

Some urban localities have separate districts for elementary and for secondary schools; others maintain elementary districts only, with a separate high-school district encompassing a larger area such as the county. Where this is true, the districts are designated as "Elem." or "High" and the superintendent for each is listed.

In situations where the schools in urban places are administered as a part of county-unit school systems, the name of the county for each such place is shown.

In cases where urban schools in New England are administered by superintendents of supervisory districts or unions, the number of the union or name of the district is indicated in parenthesis. Where urban schools are part of town systems, each of which has its own superintendent, the name of the town school district and the name of the superintendent are shown in parenthesis.

There are instances in other regions where schools in smaller urban places are a part of nearby larger urban systems. Where this is true, the name of the larger school district is shown in parenthesis.

Superintendents of local school systems in Alaska, Hawaii, and Puerto Rico.—Urban schools in Hawaii and Puerto Rico are administered by district superintendents. The superintendent for each such district is shown. Superintendents in Alaska, which does not have county or comparable area superintendents, are listed by city.

PAROCHIAL SCHOOL SUPERINTENDENTS

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed by supervisory district.

[2] The Bureau of the Census in 1950 classified as urban places (1) all population centers which have 2,500 or more persons and which are incorporated as cities, boroughs, villages, and towns (except towns in New England, New York, and Wisconsin where the term "town" refers to units of local government which are not necessarily densely populated centers) and (2) all unincorporated centers which have 2,500 or more persons and which are located outside the immediate vicinity of cities above 50,000 population.

INSTITUTIONS OF HIGHER EDUCATION INCLUDED IN THIS DIRECTORY

Institutions reported to the Office of Education as being in operation during 1950–1951 offering at least a 2-year program of college-level studies, and meeting the criteria stated below, are included in this directory.

The criteria for listing in the directory are as follows:

1. Institutions accredited or approved by a Nation-wide, State, regional, or professional agency, or operating under State control, are eligible for inclusion.

III. *Master's and/or second professional degree*—includes those institutions offering the customary first graduate degree, and any degree earned in the same field after the first professional degree, or after a bachelor's degree in that field; e. g., the degree of electrical engineer, earned after the bachelor of engineering, or the degree of doctor of science of law earned after the bachelor of laws degree.

IV. *Doctor of philosophy and equivalent degrees.*

V. *Other* (explained by footnote).

The designations of institutions by type of program are as follows:
